

Jorja Ginobas

Objective:

A passionate and detail-oriented junior backend developer with a strong foundation in web development and a desire to contribute to innovative projects. Seeking a challenging role in backend development to enhance my technical skills and make a meaningful impact on the development of web applications.

Professional Experience:

Backend Developer Intern

Singer – London, UK

2021 - 2022

Collaborated with senior developers to design and implement backend components for web applications.

Assisted in coding, testing, and debugging server-side logic and databases.

Worked with RESTful APIs to integrate data and functionality into web applications.

Developed and maintained database schemas, queries, and data models.

Participated in code reviews and contributed to the improvement of code quality and performance.

Software Development Intern

Credit Suisse – Basel, CH

2022 - 2023

Assisted in software development projects, gaining valuable experience in coding and debugging.

Worked closely with the backend development team to understand application architecture.

Collaborated on coding and testing activities to ensure software functionality and performance.

Participated in team discussions and provided insights to enhance project outcomes.

Education:

bachelor's degree in computer science

Liverpool Hope University – Liverpool, UK

2019

Skills:

Programming Languages: Python, Java, or relevant backend languages

Web Frameworks: Django, Flask, Spring Boot, or relevant frameworks

Database Management: SQL, NoSQL

RESTful APIs

Version Control: Git

Problem-Solving

Team Collaboration

Debugging and Testing

Object-Oriented Programming

Data Modeling
