

Mary Sieber

Objective:

A motivated and detail-oriented junior fullstack developer with a strong foundation in both front-end and back-end web development. I am seeking a challenging role in fullstack development to contribute to innovative web projects and further enhance my technical skills.

Professional Experience:

Fullstack Developer Intern

Optimind – Paris, France

2021 - 2022

Collaborated with senior developers to create and maintain fullstack web applications.

Worked on both front-end and back-end components, implementing user interfaces and server-side logic.

Utilized modern web technologies, including HTML, CSS, JavaScript, and relevant frameworks (e.g., React, Angular, Vue).

Designed and developed RESTful APIs for data integration and communication.

Assisted in database design, query optimization, and data model creation.

Participated in code reviews and contributed to code quality improvements.

Software Development Intern

On Running – Zurich, CH

2022 - 2023

Gained hands-on experience in software development, collaborating with development teams.

Worked closely with both front-end and back-end developers to understand application architecture.

Participated in coding, testing, and debugging activities to ensure software functionality and performance.

Contributed to team discussions, providing insights for project enhancement.

Education:

Bachelor's degree in computer engineering

Paris Sorbonne University – Paris, FRANCE

2020

Skills:

Front-End Development: HTML, CSS, JavaScript

Front-End Frameworks: React, Angular, Vue, or relevant frameworks

Back-End Development: Node.js, Python, Java, or relevant languages

Back-End Frameworks: Express, Django, Spring Boot, or relevant frameworks

Database Management: SQL, NoSQL

RESTful APIs

Version Control: Git

Problem-Solving

Team Collaboration

Debugging and Testing

Responsive Design

Object-Oriented Programming
